Description

A prince in exile, a people in turmoil, a nation at war. The fifth nation sourcebook for the 7th Sea RPG,**Castille** introduces a country embroiled in full-scale war with Montaigne. Highlights include the Vaticine Church of the Prophets and their faith, the lost fire magic of the Old Empire, Vodacce smugglers, and further material about the Brotherhood of the Coast. New character options and swordsman schools (including rules for bull-fighting and new mass-scale combat mechanics) are also introduced... as well as the true identity of Castille's masked hero, El Vago.
