Description

With the heaviest armor plating available, the Konigsluther is the bane of enemy vehicles: its Dual 12.8cm FPKZW Guns can punch holes in the heaviest enemy vehicles it'll face while its armor ensures it can withstand anything your opponent will throw at it. As your opponent's best way to remove this monster is to engage it in close combat with infantry, make sure you escort it with infantry of your own and don't worry about enemy vehicles, the Konigsluther will take care of them.

Miniatures come pre-assembled, primed and unpainted. (but ready to play!)
