Description

The Legend Continues! The Overworld's gone silent, and the Scions are left to their own devices as they battle a renewed titanspawn offensive. But is the war already lost? Without word from the Gods as to what's occurred, the heroes must master the powers of demigodhood, visit the World's terrae incognitae and finally storm the Underworld itself in a desperate attempt to reach the Gods and save all that exists. A core expansion for Scion™

• The second in a three-book series charting the Scions' journey from hero through demigodhood to divinity

• Includes everything one needs to begin play in no time, from pregenerated characters to a full adventure cycle based on the Storyteller Adventure System

• Takes a rules-lite approach featuring a modified version of the popular Exalted system

• Appeals to fans of traditional fantasy and mythology • Supported by a major advertising campaign, in store events, and online support

• Scion: Demigod is the second book in a new Storytelling game series from White Wolf Publishing. Requires the use of Scion: Hero.
